Dunkin RSVP: Self-Service: Employee Set Up Guide

Click **here** (sys_attachment.do?sys_id=ab43133047aa7d1010714e31336d437a) for the QRG.

Introduction

This guide outlines some processes and procedures to set up your employees to use the Simphony POS to tender transactions in your store(s) and some optional labor functionality. The tasks described in this guide are performed in the Oracle Reporting and Analytics (R&A) website.
You must set up your employees in order for them to be able to sign in and sign out of the POS with a unique employee ID to tender transactions in your store(s).

If you elect, you can also set up your employees to enable them to clock in and clock out on your POS system, which will then capture worked hours based on each employee ID clock in and clock out times and the settings you have selected.

Notes:
• This is not designed to be used as a payroll or HRIS system
• Functionality such as scheduling or labor rules is not part of the Oracle solution currently available to Baskin-Robbins Franchisees
• For optimal performance, it is recommended to sue Internet Explorer 9, 10, 11 or Firefox

Franchisees are solely responsible for their settings and complying with all applicable laws in their jurisdiction, including but not limited to wage and hour laws and those governing data security and privacy.

Logging In for the First Time

You must…	You cannot…
Use a laptop or desktop computer	Use a mobile device the first time • They can work after the first time, but are not ideal
Use Internet Explorer 9, 10 or 11, or Mozilla Firefox	Use Chrome, Microsoft Edge or Safari the first time
Log into EMC first and reset your password **Note**: This password is what you will use to log into R&A	Log into R&A without logging into EMC first
Use the password you set up the first time you logged into EMC for R&A	N/A
For optimal performance it is recommended to use: Internet Explorer 9, 10, 11 or Firefox	

Follow the steps below to log in.
1. Log into
https://dun01-ohra-prod-dun.hospitality.oracleindustry.com (https://dun01-ohra-prod.hospitality.oracleindustry.com)
Note: It is recommended to save the website as a favorite.

2. Enter your information:
   a. **Username**: first initial last name
   b. **Company**: Dunkin Brands
   c. **Password**: This password is the same as your EMC password.
      • EMC should have prompted you to change it when you logged in for the first time.
3. Select **Sign In**.
4. (Recommended) Select **Password** and enter the information to set up your password recovery security questions.

If you need help, please contact Unified Service Desk (USD) 800-700-1225.

Setting up a New Employee

Setting up an employee is a multi-step process and the information you enter is used throughout Labor Management, including in CrunchTime: Net-Chef and TeamworX.

In order for your employees to use your POS, you must set them up in the Oracle Reporting & Analytics website.

• Franchisees and their designees have already been set up in the system.
  • You do not need to add the Franchisee role
• If you do not complete all the set-up steps, your employees will not be able to use your POS system
• It is recommended to save the website as a favorite or bookmark.
  • You may want to rename the site to Reporting and Analytics.

Below is the required information needed to set up your employees.

- Home store
- First Name
- Last Name
- Date of Birth
- Pay Rate
- Hire Date
- Hire Status
- Employee Role Job Code
- Pay Rate – Hourly Rate or Annual Salary
- Employee Class
- POS Password
- Employee Privilege

Note: For descriptions / definitions, see Appendix: Employee Data Fields and Set-Up Options

Setting up a New Employee to Use the POS with Time Clock Feature

Follow the steps below to set up any employees to clock in/out of the POS

1. Select **Labor.**
2. Select **Human Resources.**
3. Select **Employee.**
4. Select **Add.**

Result: Set Up page opens.

There are 5 main tabs to set up the employees.

General Employee Tab

5. Select and enter the employee information.
   a. Select Home Store from the drop-down box.
   If they only have one store, it automatically appears

b. Enter First Name

c. Enter Last Name

d. Enter Date of Birth (mm/dd/yyyy)

e. Select Employee Role from the drop-down box.

Notes: For Salaried employees, the employee role the FEE selects determines what functions/tasks a Salaried employee can/cannot perform on the POS (see Roles & Permissions section)

- This cannot be changed once the employee record has been saved.
- If there is a need to change a salaried Employee's POS permissions, FEEs should contact USD

- The Age Certificate, Minor check box and Work Permit information fields are not required.

General Employee Tab – User Defined Fields

6. Scroll to the bottom of the **General Employee** Tab, and complete the **User Defined Fields**, if applicable.

Field	If…	Then…
a. Weekly Salary Hours	The employee is a salaried worker	Enter the number of **Weekly Hours** paid for the salary
The next 2 fields are **optional**:		
b. Allocate Labor to PC	6. If the FEE wants to allocate the employee's hours to a different restaurant location	6. Enter the PC number
c. Payroll System ID	6. The store use an external payroll	6. The FEE can enter the employee's payroll number if applicable

Contact Information Tab – Optional

Information on this tab is optional, franchisees can determine what, if any, fields to use.

7. Select the **Contact Information** tab.

Status Information Tab

8. Select the **Status** Tab.

a. Enter **Hire Date** (mm/dd/yyyy).
b. Select **Hire Status**.

Location Configuration Tab

The Location Configuration screen consists of two sub tabs: Job Rates (wage information) and POS Configuration (POS access level)

9. Select the **Location Configuration tab**.
   a. If they only have one store, it automatically appears
   b. If the FEE has more than one, select the home store from the drop-down.
10. Under Filter by Location, choose the restaurant location associated with the employee.

Note: Make sure the dotted lines appear.

Job Rates Tab

The information the FEE enters in the Job Rates section allows the system to calculate their labor costs and generate labor reports based upon:

- The rate of pay the FEE enters
- The hours their employee clocks in or out on the POS and
- Their selected settings, including any overtime settings the FEE defined in the Oracle Data Survey.

11. Enter Wage information. Scroll down to **Job Rates** Sub-tab.

a. Select **Location Name (PC #)** from the drop-down box.

b. Select **Job Code Name** from the drop-down box.

- This determines what functions/tasks an **Hourly** employee can/cannot perform on the POS (see Roles & Permissions section)
- If job code name is set to Crew+ or above, cash management functions would not require any authorization.

c. Enter **Effective Date** (mm/dd/yyyy) of the pay rate.

d. Enter a pay rate in the **Override Pay Rate** field.

Notes: The Overtime Level 1 field automatically calculates based on the Franchisees' response in the Online Data Survey

e. Select **Update List** to save this portion of the record.

Result: Job Rate information populates/saves, individual fields reset

POS Configuration Sub-Tab

This tab allows you to elect POS access level and assign POS password.

12. Select **POS Configuration** Sub-tab.

13. Select **Show All**.

Note: one may need to scroll drown to see this section, it is in the middle of the page

14. Select applicable **Location Name (PC #)**

Note: Make sure the dotted lines appear.

15. Select **Employee Class** from the drop-down box.

This determines if an employee can view the over/short amounts when closing/counting a cash drawer/settling a shift on the POS.

Note: If an employee class is set to Crew+ or above, cash management functions would not require any authorization.

a. Crew: Employee cannot to view the over/short amounts.

b. Manager: Employee can view the over/short amounts.

Note: It is recommended that Shift Leaders, Managers and Franchisees be assigned the class of Manager for security and cash handling purposes.

16. Enter a **POS Password** and Confirm POS Password (both passwords must be the same)

a. The password **must** be 9 digits.

b. It is recommended to use the store's **six-digit PC# + 3 unique digits** for each of the employees.

17. Enter the same POS password assigned in step 16 in the Magnetic Card Number field. Whether or not the FEE chooses to use magnetic cards, the Magnetic Card Number field must be completed, or users will not be able to sign into their POS.

18. Select **Cash Drawer 1**.

a. If the FEE selects **None** then the cash drawer will not open when tendering a cash sale.

19. Select **Employee Privilege**. This setting controls the ability to authorize an employee to clock in or out past the scheduled time in the POS, if the FEE elects to use the schedule validation feature.

- **Crew:** Requires Shift Leader level authorization or above to clock in our out past the scheduled time
- **Shift Leader and abov**e: does not require authorization to clock in or out

20. Select **Update List** in the top left corner of the panel.

Result: POS access level and passwords update; fields clear

If…	Then…
The FEE would like to grant R&A access to the user (e.g. so they can set up other employees)	Proceed to step 22.
The FEE would **not** like to grant R&A access	Proceed to step 21.

21. Select **Save** in the top left corner of the screen.

Note: If the store would like the employee to be able to ring on the POS the same calendar date that they setup the employee, then have the store press the Refresh Database button on the POS.

(Optional) Portal Tab

This tab allows a **DD Franchisee** and/or **Multi-Unit Manager (MUM)** to grant R&A access to users with a Role of equal or lesser permissions.

For example:

User…	Can add…
DD Franchisee	DD Franchisee, DD MUM or DD Manager
DD Multi-Unit Manager	DD MUM, or DD Manager Permissions
DD Restaurant Managers	No one. However, this access would allow them to set up employees in their restaurant and edit employee records (e.g. assign to another store, change job code, terminate, re-hire)

22. Select **Portal User** Tab

23. Complete the fields.

Field	Action / Description
Add User to Portal	Click on the box *Result: Check mark appears in box; fields turn blue*
Logon Name	Enter a user name • Must be unique across all Dunkin' restaurants • Recommended: first initial last name For example: jsmith or jsmith3 **Note**: if the FEE gets an error message saying **Logon Name must be unique Enter a new Logon Name**, the FEE could try adding a digit to the end of the name until the FEE successfully save the record.
Display Name	Select a display name; generally, their employee's first name. For example: Joe
Password	Enter a password following the system guidelines. a. Select the **?** icon to see the guidelines. **Note**: User will be prompted to change their password first time signing in.

<table>
<tr><td>Repeat Password</td><td colspan="2">Re-enter password</td></tr>
<tr><td rowspan="4">Role</td><td colspan="2">Select access level.</td></tr>
<tr><td>Access Level</td><td>R&A Capability:</td></tr>
<tr><td>Franchisee</td><td>b. Add Users to have Franchisee, MUM or RM level access
c. Run Audit & Analysis Reports
d. Set up other franchisee employees in R&A
e. Perform Payroll/Time Card Functions
f. Run reports</td></tr>
<tr><td>Multi-Unit Managers (MUM)</td><td>a. Add franchisee employees to have MUM or RM level access
b. Run Audit & Analysis Reports
c. Set up other franchisee employees in R&A
d. Perform Payroll/Time Card Functions
e. Run reports</td></tr>
<tr><td>Restaurant Managers (RM)</td><td>• Set up franchisee employees in R&A
• Perform limited payroll/Time card functions
• Run reports</td></tr>
<tr><td>Language</td><td colspan="2">Choose US English.
No other languages are currently supported</td></tr>
<tr><td>POS Language</td><td colspan="2">No Action Required. Must remain on Default.</td></tr>
</table>

24. Select **Save**.

If the FEE assigned the user…	**Then…**
Franchisee or Multi-Unit Manager access level	Proceed to Step 25
Restaurant Manager Access level	The FEE may close the application

Setting up an Employee to Use the POS without Time Clock Feature

Follow the steps below to set up any employees the FEE does not want to clock in/out. For example, someone the FEE has designated as Salaried or if the FEE is using an external time clock system.

If the FEE set up an employee as salaried, the FEE will not be able to get certain labor data or labor reports in the CrunchTime! System.

1. Select **Labor.**

2. Select **Human Resources.**

3. Select **Employee.**

4. Select **Add.**

Result: Set Up page opens.

There are 5 main tabs to set up the employees.

General Employee Tab

5. Select and enter the employee information.

Reminder: Franchisee has already been set up in the system.

a. Select Home Store from the drop-down box.
If they only have one store, it automatically appears
b. Enter First Name
c. Enter Last Name
d. Enter Date of Birth (mm/dd/yyyy)
e. Select Employee Role from the drop-down box.
i. Determines what functions/tasks that employee can/cannot perform on their POS (see Roles & Permissions chart in Appendix)
ii. This cannot be changed by the FEE once the FEE saves the employee record
iii. If the FEE needs to change a salaried Employee's POS permissions, contact USD

Note: The Age Certificate, Minor check box and Work Permit information fields are not required

General Employee Tab – User Defined Fields

The User Defined Fields are not needed if their employees are not using the Time Clock Feature.

Contact Information Tab – Optional

Information on this tab is optional, franchisees can determine what, if any, fields to use.

6. Select **the Contact Information** tab.

Status Information Tab

7. Select the Status Tab.
a. Enter Hire Date (mm/dd/yyyy).
b. Select Hire Status.

Location Configuration Tab

The Location Configuration screen consists of two sub tabs: Job Rates (wage information) and POS Configuration (POS access level).

8. Select the **Location Configuration** tab.
a. If they only have one store, it automatically appears
b. If the FEE has more than one, select the home store from the drop-down.
9. Under Filter by Location, choose the restaurant location associated with the employee.

Note: Make sure the dotted lines appear.

10. Enter Salary Information
a. Select **Is Salaried**.

Note: Effective from date defaults to hire date.

1. Scroll down to the Job Sub-tab
a. Select applicable Location Name (PC #) from the drop-down box
b. Select the applicable Job Code Name from the drop-down box

Note: NC means no clock in

c. Enter Effective From date (mm/dd/yyyy) for the pay rate.
d. Select Update List to save this portion of the record.

Result: Job Rate information populates/saves, individual fields reset.

POS Configuration Sub-Tab

This tab allows the FEE to elect POS access level for the employee and assign POS password.

12. Select **POS Configuration** Sub-tab.

13. Select **Show All**.

Note: one may need to scroll drown to see this section, it is in the middle of the page

14. Select applicable **Location Name (PC #)**

Note: Make sure the dotted lines appear.

15. Select **Employee Class** from the drop-down box.

This determines if an employee can view the over/short amounts when closing/counting a cash drawer/settling a shift on the POS.

Note: If an employee class is set to Crew+ or above, cash management functions would not require any authorization.

a. **Crew:** Employee cannot to view the over/short amounts.

b. **Manager:** Employee can view the over/short amounts.

Note: It is recommended that Shift Leaders, Managers and Franchisees be assigned the class of Manager for security and cash handling purposes.

16. Enter a **POS Password** and **Confirm POS Password** (both passwords must be the same)

a. The password **must** be 9 digits.

b. It is recommended to use the store's **six-digit PC# + 3 unique digits** for each of the employees.

17. Enter the same POS password the FEE just assigned in step 16 in the **Magnetic Card Number field.** Whether or not the FEE chooses to use magnetic cards, the Magnetic Card Number field must be completed, or users will not be able to sign into their POS.

18. Select **Cash Drawer 1.**

a. If the FEE selects **None** then the cash drawer will not open when tendering a cash sale.

19. Select **Update List** in the top left corner of the panel.

20. Select **Save** in the top left corner of the screen.

(Optional) Portal Tab

This tab allows a **DD Franchisee** and/or **Multi-Unit Manager (MUM)** to grant R&A access to users with a Role of equal or lesser permissions.

For example:

User…	Can add…
DD Franchisee	DD Franchisee, DD MUM or DD Manager
DD Multi-Unit Manager	DD MUM, or DD Manager Permissions
DD Restaurant Managers	No one. However, this access would allow them to set up employees in their restaurant and edit employee records (e.g. assign to another store, change job code, terminate, re-hire)

22. Select **Portal User** Tab

23. Complete the fields.

<table>
<tr><th>Field</th><th colspan="2">Action / Description</th></tr>
<tr><td>Add User to Portal</td><td colspan="2">Click on the box
Result: Check mark appears in box; fields turn blue</td></tr>
<tr><td>Logon Name</td><td colspan="2">Enter a user name
Must be unique across all Dunkin’ restaurants
Recommended: first initial last name
For example: jsmith or jsmith3

Note: if the FEE gets an error message saying Logon Name must be unique Enter a new Logon Name, the FEE could try adding a digit to the end of the name until the FEE successfully save the record.</td></tr>
<tr><td>Display Name</td><td colspan="2">Select a display name; generally, their employee’s first name.

For example: Joe</td></tr>
<tr><td>Password</td><td colspan="2">Enter a password following the system guidelines.

<tr><td>Restaurant Managers (RM)</td><td>Set up franchisee employees in R&A
Perform limited payroll/Time card functions
Run reports</td></tr>
<tr><td>Language</td><td colspan="2">Choose US English.

No other languages are currently supported</td></tr>
<tr><td>POS Language</td><td colspan="2">No Action Required. Must remain on Default.</td></tr>
</table>

24. Select **Save**.

Granting Access to Specific Network, Zone or Sub-Zone Levels

If the FEE wants to grant the Franchisee or MUM User to be able to add other users and view reports for a specific Network, Zone or Sub-Zone, then follow the steps below.

1. Select **Labor > Admin Users**.

2. Search for the employee record:

   a. **Last Name**

   b. **Equal to**

c. Enter the name the FEE wishes to search

d. Select **Find.**

3. Select the **Employee's Name**

4. Select **Edit.**

Select the **Org Level** field to match the following specifications:

a. Franchisee = NETWORK level access

b. Multi-Unit Managers = NETWORK, ZONE, or SUB ZONE level

6. Select **Save.**

Confirming Employee Data in CrunchTime! Net-Chef

Franchisee Employees are initially set up in the Oracle Reports and Analytics and data is transferred to the Back of House (BOH) software, CrunchTime! Net-Chef application. The data in Net-Chef can be used to track Sales Forecasting and in Posting Labor. Additionally, TeamworX is a Net-Chef companion application franchisees can use to manage restaurant schedules for each of their location(s). **TeamworX is an optional application**.

Confirm New Employee Setup: The store should confirm the data they entered in Oracle R&A is transferred to Net-Chef. To verify:

1. Log into: Net-Chef.

2. Select **Labor**.

3. Select **Employee Maintenance.**

Result: The Employee Information screen appears.

4. Verify the employees the FEE entered in Oracle Reports and Analytics have transferred to Net-Chef.

Notes:

- The transfer process normally take 15 minutes to complete.
- If any data is missing or needs editing, return to Oracle Reports and Analytics and make the changes. Once again, the data transfer process takes approximately 15 minutes.

POS Roles & Permissions

Below are systems access and functions available based on the role the FEE assigns to a given user.
